

Despite the attempt to portray some of our major cities in the grip of lawlessness and disorder which is incited or conducted by ANTIFA or Black Lives Matter or other “*radical /left*” individuals and organizations, it should be noted that, historically, **most** of the politically-inspired violence in the United States during the past 50 years (assaults, murders, attempted murder, lynchings, castrations, bombings, arsons, etc) has been a consequence of malign beliefs and behavior **by RIGHT-WING fanatics**.

A recent study has shown that:

<https://www.washingtonpost.com/investigations/interactive/2021/domestic-terrorism-data/?itid=hp-top-table-main>

"Since 2015, right-wing extremists have been involved in 267 plots or attacks and 91 fatalities, the data shows. At the same time, attacks and plots ascribed to far-left views accounted for 66 incidents leading to 19 deaths."
